

**PACIFIC RESEARCH &
ENGINEERING**

Pacific Research and Engineering has been acquired by Wheatstone Corporation of New Bern NC. from GatesAir of Quincy, IL. (formerly Harris Broadcast). Wheatstone now offers legacy technical documentation and owner/installation manuals for PR&E products at this website. As legacy documents, references may be made to historical GatesAir or Harris Broadcast technical support. It is important to note that all technical support for PR&E products is now available solely from Wheatstone Corporation, its employees and designated official dealerships. References to other support sites or contact information contained within these legacy documents (i.e., GatesAir or Harris Broadcast) are no longer valid.

If you require technical support and/or information in addition to the file downloads available here, please contact techsupport@wheatstone.com, or call +1.252.638-7000 (weekdays 9-5pm eastern standard time USA) for assistance. Thank-you.
